School RULES! Math: Shortcuts, Secrets, Puzzles, And Tricks To Help You Become A Math Master

Synopsis

Why does math matter? We use math every day. Think how often you wonder: "How many?" "How much?" "How far?" Without math, you couldn't answer these questions. With practice, anyone and everyone can become better at it! This book was created to help you build the confidence you need to tackle math questions and come up with solid answers. With advice, tricks, games, and exercises, you'll soon be expanding and making the most of your mathematical mind.

Customer Reviews

This is an adorable book that really will be helpful throughout the years for my daughter. There are a ton of tips and tricks for all different types of math problems and there's games to play and hints for help that really make math fun. I definitely need to get a boy version of this book for my son. It made reading about math fun for my daughter and I would definitely recommend it 2 reading age girls that are doing multiplication and division as well as fractions.

My daughter LOVES LOVES LOVES these books. She is not really interested in math more, making her own flashcards and becoming a mathlete. ;)

My daughter, who hates math, has been very excited to show me the cool stuff she has learned from this book.

My nine year old loves this. She said it gives her clues and short cuts to math.

Excellent! Amazing price!!!!
