## Customer Reviews

Actually this was one of the greatest books about self publishing on , creating the author's platform and marketing your books. I have read a lot on these subjects lately, but this was really worth. Not only motivating, but full of good tips, instructions and lists to follow. Not too technical either.

I have been toying with the idea of publishing on Kindle and have been to several webinars and all the pieces didn't quite come together until I read this book. It's concise and gives a step to step logical sequence. I can now start with some confidence with the information I received from this book

I must say that this book was very informative. I will use each tip today. Thanks your for your knowledge.
