Customer Reviews

My kids love this story and found a video on YouTube with the author reading it. They must've watched that video a hundred times (not joking). When I found this book with sound on, I ordered it right away! It's a bedtime story favorite with all my kids. We even do the movements like the author in his video! Great, Engaging Book!

My grandson is gonna LOVE this book. It would be great even without the sound buttons, but with them makes this a fantastic book. The story is adorable of a family looking for a bear together; and I can see how this could become a favorite very easily! Very pleased!

This book was new to me but I really love the story and the way it's written and this sound book

makes it a lot more fun for my 2 1/2 year old granddaughter...she loves matching the "sound" buttons to the right pictures. The story itself is precious and the "sound" adds more.

My 4 year old daughter can now "read" this book from beginning to end. Her 18 month little sister likes to help by pushing the buttons and turning the pages when she is done. This is a classic.

This was a book from my childhood and I love reading it to my kids as well. I had to get a new book, as my son read it so much the pages were ripped and worn, for my baby girl. I got this interactive one when I saw it. They read this book with me, and by themselves, almost daily. The sounds are not too bad, but the book is very interactive and captures the imagination. From my 7 year old to my 1 year old, this book is a hit in my house!

Love the book with sound, however soft cover was recieved damaged with an inch puncture through the padded envelope it was shipped in. Still keeping as is because it should gets its use anyways.

Bought one; it didn't work. Bought another one, which didn't work (both books received fresh batteries). Major disappointment. Returning them were not worth the postage, so out of thatoney

All 3 of my granddaughters love this book and this version is the perfect size for little hands. I will be ordering more so they each have a copy.
