Customer Reviews

This is a great value product for a beginner. With a coursebook, 3 cd's or cassettes and a dictionary, the beginner will have an easy time settling in to the new language, and there is ample vocabulary and phrases to keep them moving forward. For a package so complete the price is outstanding. The coursebook eases the learner into the language with several lessons on pronunciation, the alphabet, the vocabulary that is most useful (like numbers) or that is easy to remember or associate

with (like days of the week, months of the year etc), and lots of cognates. The course then gets into common sayings, dialogues, greetings and useful phrases before slowly tackling the grammar. Each of the 40 lessons has a few exercises that put to use the vocabulary, phrases and grammar covered in the lesson. Verb conjugations, tenses, word order and other rules of grammar and syntax are all demonstrated in small batches throughout the course. Never in great depth (hence the word Basic in the title) but everything that is essential in everyday speech (hence the word Complete). The audio portion contained on the 3 cd's are coordinated with the coursebook. Bold text vocabulary and phrases in the coursebook are pronounced on the cd's. The early lessons are heavy in audio as the student needs to hear the sounds of the language to begin to develop their pronunciation skills. The third part of this package is the dictionary, invaluable during and after finishing the course. The learner can begin to use vocabulary most relevant to their own needs, and apply them with the basic knowledge gained from the course.
