I bought these for my granddaughter for her birthday. She is in kindergarten and just learning how to read. She loves Barbie and loves to read these books. I think being a good reader is the foundation of all education. These books have captured her attention and has helped her learn sight words. She gets a big kick of pointing out the words she knows and accepts the challenge to sound out some words as well. These are great books. An added bonus is these books are a good way to remind her she can be anything she wants to be when she grows up.

My daughter loves this book! Great book for early readers, with wonderful pictures! My daughter loves reading these stories. We both love that there are different levels of difficulty within the book so you can find the level that's right for you and build upon it.

My 6 year old is learning to read in kindergarten this year. She loves Barbie, so this provides a good mix of reading encouragement with a character she already enjoys. The stories contain several of her "popcorn words" and talk about different things she can do. As a parent, I like the utility of having several stories in one volume.

It seems like this book was written in 5 minutes. You can tell exactly what the book says by looking at the pics on the cover. I know it's a children's book and I don't expect great detailed job descriptions, but man, throw something in there a 5 year old might not have known or thought about before picking up this book.

My five year old loves reading these stories to me. She has just started kindergarten and is learning to read. The pictures give great context clues to help her through words she isn't familiar with yet.

I have six children of my own and teaching them to read is an important challenge. I think the Barbie story collection is GREAT! It "Hits the Spot" perfectly. The book uses a lot of high frequency words. It starts off a little easy and each story gets a little more challenging. The content of the book is nice too. My daughter loves it.

My 5yo received this for her birthday and promptly read the whole thing the next day. She loves it and has continued re-reading it often. If you have a new reader and they love Barbie, then this is ideal. They may need help with a few words and names, but overall it's great!

I got this for my daughter for Christmas. She loves it. I think it has been a great motivator for helping her to read. Most of the words are easy for her to sound out when she doesn't know them and I love how it teaches that she can choose to do whatever she has an interest in.
