This interactive quiz is just absolutely adorable for this technologically advanced generation of youth. My 12 year old daughter obviously did better than I. I am not destined for a love affair with

this young man. However, it was an interesting experience and I learned quite a bit about his musical abilities. Definitely think this is a good ebook for those young girl crushes. Where was this when I was in love with New Kids on the Block.

If u love Justin beiber and u know every fact about him or u think u know then u should get this

This ebook is incredibly interactive. It is very fun and positive. After reading a similar book for One Direction, I was waiting for this ebook to come out and it is simply fantastic. There is definite structure to this book, something I genuinely appreciate. All of the small things in this just makes me smile and giggle, typical fan girl behavior. But I loved everything about this, so I know you will too!

The interactive version is very interesting for everyone to try and have loyal fans testing their love for Justin. Unlike normal board games and physical manuals the interactive version grades the fan based on answer check right and there. It quickly calculates your overall love score for Justin, without waiting till the end of the quiz to get results.
