Customer Reviews

I bought this book for my daughter. Its so cute. I like the book. I read it to her cause she too little to read yet. Cute pics. It makes me reminisce (I hope I spelled that right...lol) of when I was little so full of life.

In the case of "Busy Toes", you sure can tell a book by its cover! The delightful cover illustration of a little girl on her toes invites you to turn the pages with your fingers (or toes). Simple, say-it-all, words accompany each rich illustration of a child manipulating his/her toes. The rainbow of faces reminds us of the wonderful diversity of our world and delight in moving toes serves as a common bond. The authors and illustrator have created a book that will bring a smile to a child and adult alike.....and the desire to wiggle your toes!

Fabulous! - This book is all about the illustrations which simply make you smile! Who doesn't love

chubby, little-bitty-kiddy toes? This book depicts everything a child can do with their toes. -With fabulous creativity and oodles of imagination, the author and illustrator of this book haven't missed a single one. Smiling happy children and sweet text, one can't help but want to read it again and again just to experience those delightful illustrations all over again.~DeeDee Fox, Author and Illustrator, The Ruby Red Slippers

I never in a million years would have guessed this would be both my kids favorite book. I have read this book to them hundreds of times and they still love it. Something about toes is just plain fun!

Not what I expected.
