Roverandom: Complete & Unabridged

Synopsis

For the first time on CD J R R Tolkien's novella about the adventures of a bewitched toy dog. While on holiday in 1925, four-year-old Michael Tolkien lost his beloved toy dog on the beach at Filey in Yorkshire. To console him, his father, J.R.R. Tolkien, improvised a story about Rover, a real dog who is magically transformed into a toy and is forced to seek out the wizard who wronged him in order to be returned to normal. This charming tale, peopled by a sand-sorcerer and a terrible dragon, by the king of the sea and the Man-in-the-Moon, went through several drafts over the years. Now, many years on, the adventures of Rover -- or, for reasons that become clear in the story, 'Roverandom' -- are published on CD the first time.

For a little kid, losing a favorite toy is downright traumatic. So in 1925, when four-year-old Michael lost his little toy dog on the beach, fantasy author J.R.R. Tolkien made up a story to comfort his son. It explained away the loss of the toy, and wove a magical story around a little dog named Rover. Rover is an ordinary little puppy near the seaside in England, until he runs into a grumpy old man and ends up biting off part of his pants. The old man happens to be a wizard (Artaxerxes by name), and promptly transforms Rover into a toy dog (and no, I don't mean a tiny dog -- I mean a real toy). Rover subsequently gets picked up and sold to some little boys (presumably the Tolkien kids). Fortunately, Rover encounters another magical being, a crusty, kindly sand-wizard named Psamathos. That wizard, in turn, gets Rover (who is renamed Roverandom) flown to the moon, where he spends time with the Man in the Moon and his winged dog Rover. And then he's heading

off to encounter a talking whale, a mer-dog, a sea serpent -- and a dragon. Like the vastly underrated "Farmer Giles of Ham," "Roverandom" is a charming little bit of whimsy. No deep themes, no epic clashes, not even really a villain. The writing is charming and magical, with phrases like "There was a cold wind blowing off the North Star" sprinkled through it. It almost gives the feeling of being in another world. Best of all, in the middle of the book are Tolkien's own illustrations, cute little drawings and ethereal paintings. Rover is well-named, since his adventures are all over the map and don't really progress from one to the other. It's merely a cute little dog roaming over the moon, the ocean, and the land, conversing with shrimps and bothering wizards.
