A Short World History Of Christianity, Revised Edition

Synopsis

Church historians have long known and appreciated Christianity's global history. Until recently, however, introductory textbooks on the history of Christianity focused almost exclusively on Europe and North America. Robert Bruce Mullins's *A Short World History of Christianity*, by contrast, offers a panoramic picture of the history of Christianity in its Western and non-Western expressions. It tells the story of the early church in the Greek East as well as the Latin West; of Christianity's spread into Asia as well as Europe during the Middle Ages; and its explosion around the world during the modern period. Mullins's highly readable narrative explores why global perspectives have emerged so strongly in our understanding of the story of Christianity and how they have impacted Christianity's perspective on its place in the world. This newly revised edition adds information on such global phenomena as early Syriac-speaking Christianity; the growth of Pentecostalism around the world, especially in the southern hemisphere; and recent trends in Christianity, including the elevation of the first pope born in the Americas. A time line of key dates, call-out boxes, and other helpful study materials are also provided. Beginning students will appreciate this memorable introduction to the most important events in the history and development of Christianity.

Customer Reviews

I've read a few chapters of this book in proof form prior to publication. Mullin's gift is the ability to make history accessible and interesting, while not compromising on scholarly foundations or

analytical complexity. His insights into Christian history are new and illuminating, and yet ring with the truth of careful, sound scholarship and analysis. Anyone, be they student, scholar, believer, inquirer or skeptic will find this work challenging, intriguing and very rewarding. Mullin is that rare academic who is brilliant scholar, illuminating teacher, and an excellent writer. This is a great place to begin a study of Christian history or to refresh one's knowledge. This work belongs on the bookshelves of anyone at all interested in the history of Christianity.

There is no force that has had a greater impact on the world than Christianity - and "A Short World History of Christianity" is an examination of the religion's impact as a whole throughout the ages. Starting with the birth of Jesus, it covers the over two millennia that follow, discussing each of the following major topics that the religion has done to change the world. "A Short World History of Christianity" is a must for both world history collections and Christian studies shelves.

Great read! This book is summed up in the title, very brief, however, jam packed with wonderful information.

Really good condition and nice book for Christian heritage class.

An approachable history of Christianity written by scholar for lay audience.
