Customer Reviews

Although this is a good book on QB 2016, it isn't quite as detail as I had hoped. But, I'm the kind that likes to know about the back door solutions, those ways to fix a mess up, etc. A good instructional book, but so far, I don't find it includes all of what I had hoped.

A little too detailed. A beginners section would be great.

Good for new business owner operator. I was expecting a more in-depth book for experienced bookkeepers.

Helpful if you know the terminology good

Very helpful, it's a shame you pay all that money for software & they supply with a manual. So this was a big help!!

So far so good

Very satisfied
