Customer Reviews

Dear Pete:As promised, here is my review of your book.I have the pleasure of knowing Pete Aldredfor over 5 years. We have had a business relationship with my online product for eye care. Throughout this time period I have come to realize that Pete is not only a mentor in success building but also one of the most honest, trustworthy and loyal people I have come to know. When the student is ready, the teacher miraculously appears. Well, I'm the student and Peter is the teacher and "I'm Ready!"As I began the book I actually felt that I was getting bitesize nuggets of the history

of money, currency along with short video clips explaining his lesson. The book is written in very simple language making you continue to turn the page. Pete your a genius!Once I passed the middle of the book and began the BitCoin and ClubCoin part, I grabbed my yellow highlighter!!, copied notes into my note app on my I phone for constant review.I emailed Pete and asked him to help me begin the process in getting involved with Cryptocurrency. Let the action begin!Lenny Muroff(...)
