## Customer Reviews

The basic concept of this book is absolutely great. In his opening the author writes, "... The thought of making money at home in your shorts is intoxicating. Yet, many people never take the first step to making it happen. It isn't because they don't have the skill set, it is because they don't know how or where to start..." I couldn't agree more. People have all kinds of ideas, many of them excellent, they chat with their friends, everybody agrees that the idea is great, and then - nothing happens. That being said the flaw of this book is that it is not defined what exactly it is supposed to be: 1) a motivator? 2) an idea finder? 3) a manual how to bring your idea to fruition? I can say with certainty that this book is not 3). While I am not sure about the possible execution of many of the "70 painless ways" for sure not every idea in this book is well presented and more importantly - presented correctly. E.g. the author writes, " Sites like acx.com (owned by ) allow you to take your books and turn them into audio books. So now, your one kindle book, is now making money for you three separate ways. Can you beat that? Sign up to the website and get started. ACX does run a bit differently. It will give you options to record your book in your own voice, or have someone do it for you with different royalty structures depending on what you choose..." Being an author who has looked into producing audio books and has visited sound studios many times (when working in the movie industry) I can say with certainty, "It ain't that easy!" Yes, you can have your book recorded by a professional artist but that's going to cost , more than \$5.00 (no mentioning of investment in the above paragraph).
